EMBRACING NATURE

A collection of wall cladding profiles

Superior Natural Stone *since 1998*

www.asianstones.com

WHY NATURAL STONE?

- *Uncompromising beauty*
- *Unmatched by imitation*
- *Infinite durability*
- *All natural, eco-friendly*
- *Ideal for interior and exterior*
- *Adds value to your property*

Our Natural Stone Wall Cladding designs bring forth a palette of colours that define the ethereal character of Mother Earth. The artfully created patterns provide a surreal appearance to the surroundings.

Presenting an array of colours, patterns and finishes in this Natural Stones Wall Cladding Look Book.

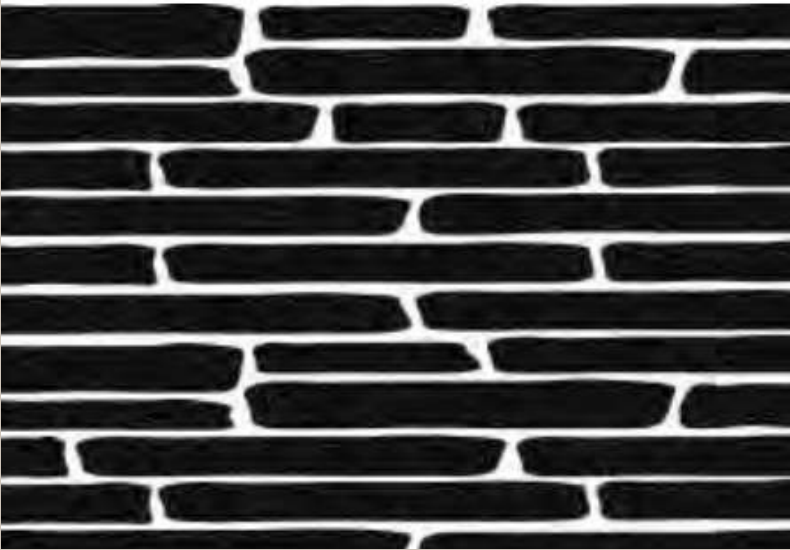

CONTENTS OF THE LOOK BOOK

	<u>Pg No</u>
1. INTRODUCTION TO WALL CLADDING PROFILES	3-7
2. SHADE-WISE PROFILES IN IMAGES:	
2.1 ALASKAN IVORY	4 - 7
2.2 OUTER SPACE	8 - 12
2.3 SMOKEY GREY	13 - 17
2.4 CANYON BROWN	18
2.5 RUSTIC COSMOS	19 - 22
2.6 CHARCOAL BLACK	23 - 25
2.7 OLIVE BROWN	26
2.8 BLACK RUNDLE	27 - 30
2.9 DESERT SAND	31 - 32
2.10 CHARCOAL RUST	33 - 37
2.11 ALASKAN WHITE	38 - 40
2.12 MAPLE RED	41 - 42
2.13 ALASKAN SAND	43 - 44
2.14 SMOKEY BLACK	45
2.15 OLIVE GREEN	46
3. STONE INSTALLATION GUIDE	47
4. ABOUT US	48
5. CONTACT DETAILS	49

STONE PROFILES - WALL FLATS & CORNERS

Prototypes of the stone wall cladding profiles offered by Asianstones - at a glance

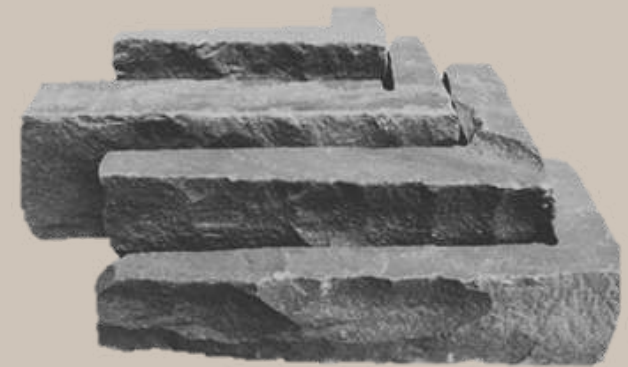

The LEDGESTONE

Dimensions details of Flats:
Length: 4" - 24" ; Height: 2" - 5" ;
Thickness: Approx 1"

Dimensions details of Corners:
Long Arm: 6" - 10" ; Short Arm: 2" - 5"
Height: 2" - 5" ; Thickness: Approx 1"

The LEDGESTONE CORNER

Built in Rock Face, Hand Cut Finish & Machine Cut (Dimensional) Finish

The CASTLESTONE

Dimensions details of Flats:
Length: 4" - 15" ; Height: 4" - 15" ;
Thickness: Approx 1"

Dimensions details of Corners:
Long Arm: 6" - 10" ; Short Arm: 3" - 6"
Height: 4" - 9" ; Thickness: Approx 1"

The CASTLESTONE CORNER

Built in Natural Face, Hand Cut Finish & Machine Cut (Dimensional) Finish

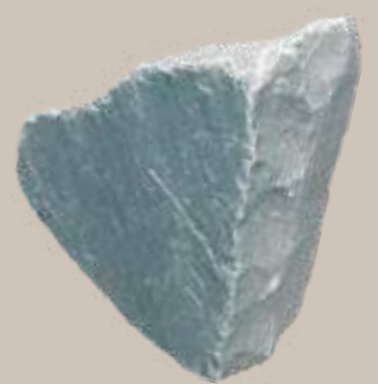

The FIELDSTONE

Dimensions details of Flats:
Length: 4" - 15" ; Height: 4" - 15" ;
Thickness: Approx 1"

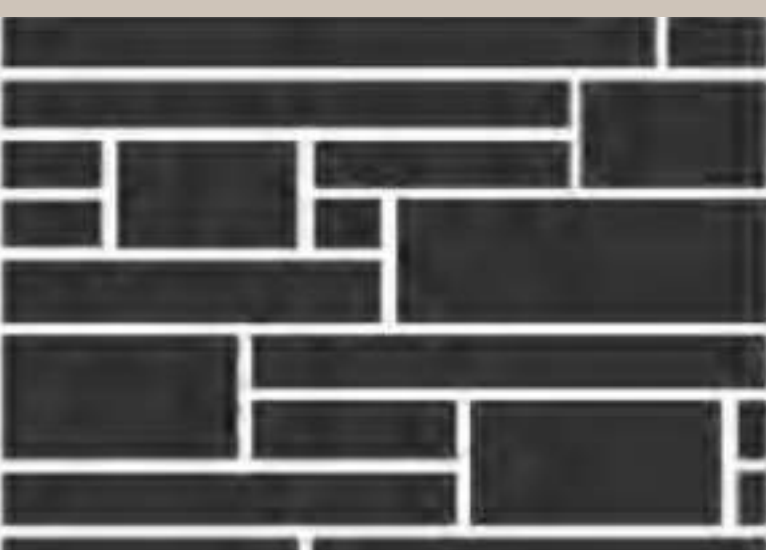

Dimensions details of Corners:
Long Arm: 6" - 10" ; Short Arm: 3" - 6"
Height: 4" - 12" ; Thickness: Approx 1"

The FIELDSTONE CORNER

Built in Natural Face, Hand Cut Finish

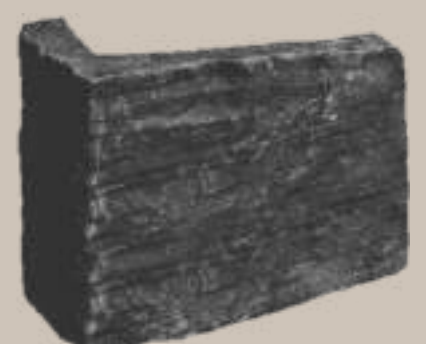

The CASTLEDGE

Dimensions details of Flats:
Length: 4" - 15" ; Height: 2"/3"/5"
Thickness: Approx 1"

Dimensions details of Corners:
Long Arm: 6" - 8" ; Short Arm: 2" - 4"
Height: 2"/3"/5" ; Thickness: Approx 1"

The CASTLEDGE CORNER

Built in Natural Face, Machine Cut (Dimensional) Finish

Natural Stone Installation Guide

Proper installation is critical for maintaining the durability and longevity of any building material. We strongly advise hiring an experienced and **skilled team of masons** for the installation of our stone wall cladding.

Standard practises:

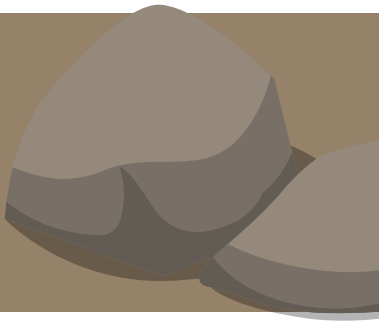

- Our 90-degree wall corners are to be installed first, followed by the flat wall tiles. Aside from our pre-designed packaging, it is upon the mason's **creativity to install stones** depending upon the pattern. The process needs to be thoughtful and paced. Rushing it, seldom does good!
- **ADHESIVES** for the stone installations may be procured from reliable manufacturers such as Mapei, Bal Endura, Kerakoll, Laticrete, Ultratech.
- **GROUTING** well accommodates the aesthetic to ones liking! Maintain a grout depth of a maximum 10-12mm as the thickness of our stone is 20mm. A sample wall must be created to conclude on the appropriate grout colour and space. A common grout space between stones is 7-12mm.

difference: With vs Without grouting space

- To help protect the stone surface from the spread of grout material, it is **important to clean** it with a wet sponge, immediately after grouting.
- Applying **SEALANTS** (dry or wet), though not mandatory, can help in reducing permeability and enhance the life of stones after installation. This can be repeated yearly or biennial intervals as well. Ensure no acid, paint, bird-dropping, tree seeds or foreign material comes in contact with stones during the process of installation.

BUILT WITH VALUES

Our foundation is built on quality products and state-of-the-art equipment with ethical business practises that our founders, BK & Nisha Jhaver, instilled into the framework of our company 25 years ago.

As a pioneer exporter, we continue to lead the building and landscaping stone industry with quality and unparalleled customisation.

Sourcing natural stone from over 25 quarries across India, our skilled craftsmen create an architectural masterpiece to enhance timeless beauty.
